

CLiKAPAD®

The only truly portable Radio Frequency (RF) keypad voting system, designed for meeting professionals. Dependable, functional and easy to transport from meeting to meeting!

Credit card size, ultra light weight and tactile voting buttons!

Choose from two models of CLiKAPADs, both weighing in at just 34 g / 1.2 oz each!

The luminescent (glow in the dark) tactile membrane is great for low light situations, eg conferences, with Numeric keys 0 to 10 plus * multi-function key! CLiKAPAD CP37 supports software selectable Alpha operation with keys A through I and Alpha display to match!

The innovative CLiKAPAD tactile membrane delivers positive feedback by way of a click each time a key is selected, hence the name CLiKAPAD!

The range of software supporting CLiKAPADs is growing. Go to www.clikapad.com for latest information on resellers and software vendors and review customer testimonials.

The CLiKAPAD RF Base Station is powered by the USB port and, as shown here with the CLiKAPAD family illustrating the design focus of compactness, elegance and plug-and-play functionality.

Shown Actual Size
52.8mm x 84.2 x 7.7

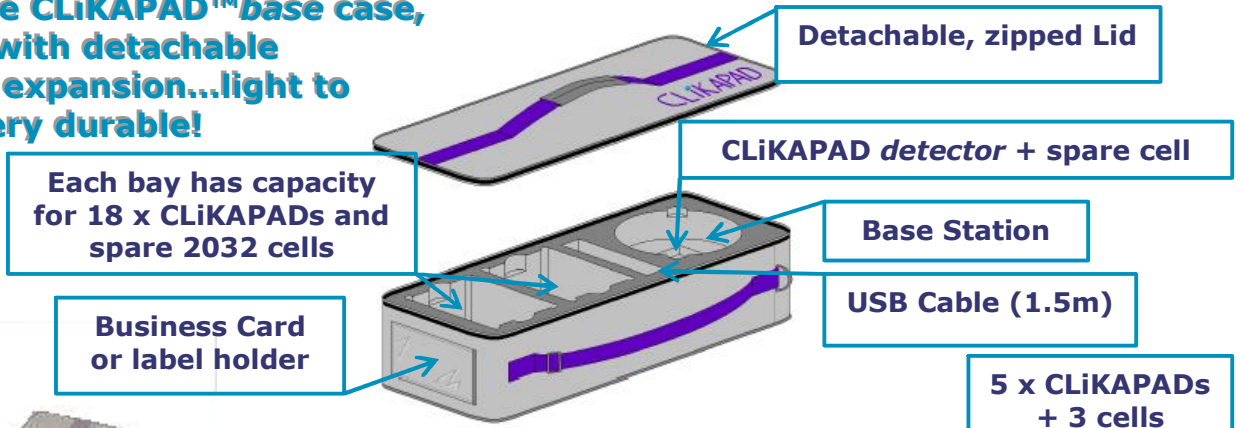

The USB cable is detachable

The CLiKAPAD CP31 and CP37 are joined by the CLiKAPAD *sentry* to guard your CLiKAPAD inventory. The CLiKAPAD *presenter* allows presentations to be managed from anywhere in the room.

◆ UNPARALLELED SPEED ◆ UNRIVALLED PORTABILITY ◆ UNEXPECTED FUNCTIONALITY◆

Ask about the CLiKAPAD™ base case, shown here with detachable lid to enable expansion...light to carry, yet very durable!

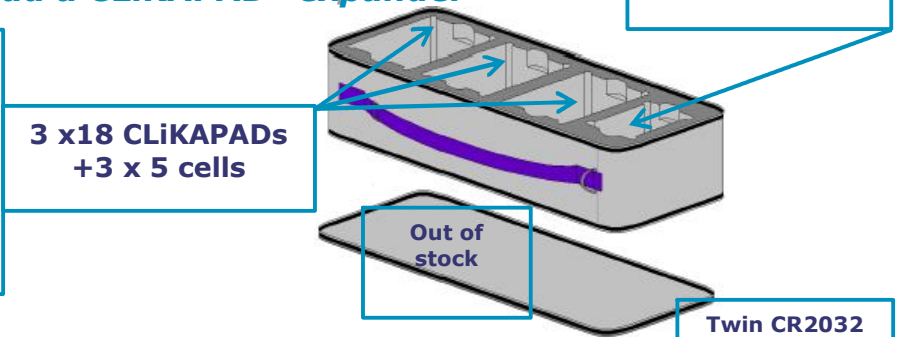

As your system grows, simply add a CLiKAPAD™ expander

You can keep on growing your system with CLiKAPADexpander™

Base + 1 exp =	100 CLiKAPADS (4.41kg)
Base + 2 exp =	160 CLiKAPADS (6.85kg)
Base + 3 exp =	220 CLiKAPADS (9.2kg)
Base + 4 exp =	280 CLiKAPADS (11.62kg)
Base + 5 exp =	340 CLiKAPADS (14kg)
Base + 6 exp =	400 CLiKAPADS (16.3kg)

(All weights approximate, convert metric to imperial ounces based on x 2.2)

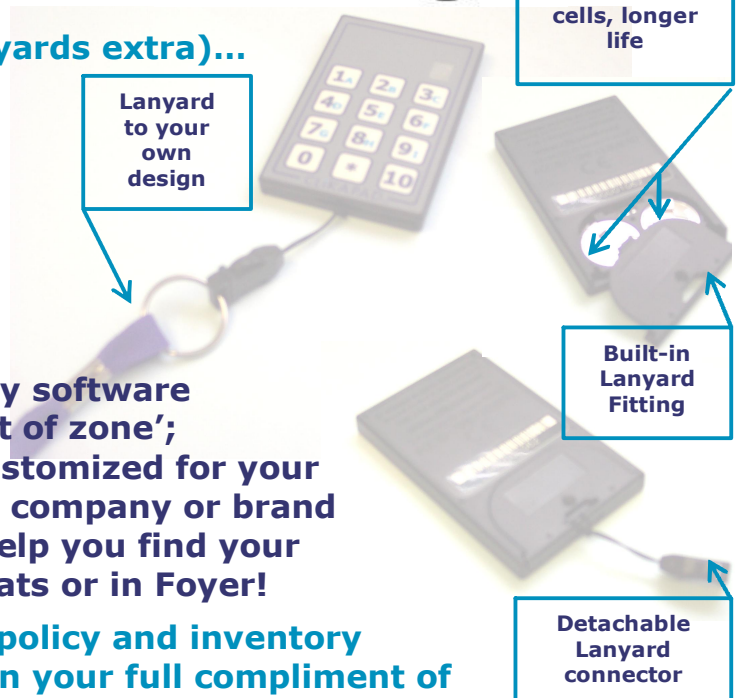

Lanyard fitting, built-in as standard (lanyards extra)...

CLiKAPAD: designed for meetings of ALL sizes, audiences from 5 to 5000 and beyond are accommodated.

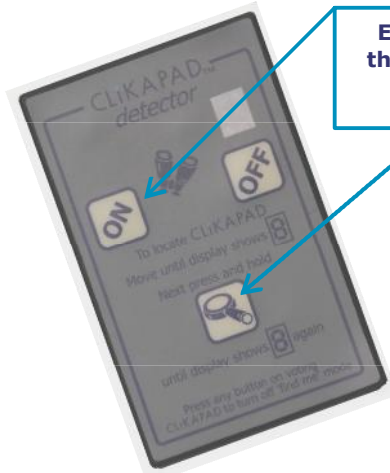

CLiKAPAD "detect" capability makes it easy to find them should they go astray!

CLiKAPAD security features include;

- internal audible buzzer, activated by software when CLiKAPAD is sensed to be 'out of zone';
- Optional lanyards. These can be customized for your conference to promote, your event, company or brand
- The unique CLiKAPAD detector to help you find your CLiKAPADs if they get left under seats or in Foyer!

The CLiKAPAD® detector, your insurance policy and inventory management tool. Ensuring you maintain your full compliment of CP37 & CP31 CLiKAPADs!

Easy to use - switch on and then wait for the display to show a signal. Now move in the direction of the strongest signal

When the display indicates an 8, which is max signal strength, press and hold down the magnifying glass to change to close mode. The display will recalibrate and as you get closer the display increments back up to strength 8, by this time you will be on top of the CLiKAPAD and you will hear it buzz and be able to locate it.
